▼ Features

- 1000W large power, rapid heating, abundant thermal capacity, high heating efficiency.
- Brushless vortex airflow fan, stepless adjustment, soft airflow.
- Even heat distribution, avoid damaging heat sensitive component by high temperature.
- Intelligent auto sleeping, energy saving, expand the lifetime of heating element etc.
- LCD display, dynamic visual display of air volume/temperature, three-channel of temperature storages.
- The handle is more ergonomic, light and comfortable.

▼ Specifications

Model	862DA+	862DW+
Power	1000W	
Display type	LCD	
Operating voltage	220V AC	
Type of airflow	Vortex airflow	Vertical airflow
Temperature range	100°C~500°C	
Air volume	1~120 Class	
Air flow	50L/min (Max)	
Outer dimensions	180*210*130.6mm	
Weight	About 2.6Kg
